1. Helpful Tips

The DAAD offers a variety of personalised online services including the DAAD application portal. The portal is compatible with Windows and Mac OS. The following browsers are supported: Google Chrome, Mozilla Firefox, Safari, Internet Explorer and EDGE.

The portal is not optimised for portable or mobile devices. We therefore do not recommend accessing the portal via a mobile phone or tablet. Please use a desktop computer.

To successfully start your application, it is advisable to check current calls for application in our scholarship database:

<http://www.funding-guide.de>

To start an application, please follow the links posted in the calls to be directed to the application portal.

Please keep in mind that the Project Funding and the Personal Funding are distinct areas in the portal and require separate accounts. It is not possible to use the same account for applications in both areas.

If you experience difficulties during the registration process or need technical support, please contact our portal hotline via +49 228 / 882 – 8888. The hotline is available on workdays from 9-12 am and 2-4 pm (CET/CEST). Furthermore, you may contact the hotline via email: portal@daad.de.

2. Starting the Registration Process

Please visit the login page for the personalised DAAD online services via www.mydaad.de.

If you follow the link from the application calls in our scholarship database, you will be directed to the homepage of the personalised DAAD online services. If you do not have an account yet, you may register and will then be directed to the application section of the portal.
